(b) Medically necessary ancillary infusion equipment and supplies required to administer the blood clotting products; and

(c) Assessments conducted in the participant's home by a pharmacist, nurse, or local home health care agency trained in bleeding disorders when deemed necessary by the participant's treating physician;

(25) Medically necessary cochlear implants and hearing instruments, as defined in section 345.015, that are:

(a) Prescribed by an audiologist, as defined in section 345.015; or

(b) Dispensed by a hearing instrument specialist, as defined in section 346.010;

(26) The MO HealthNet division shall, by January 1, 2008, and annually thereafter, report the status of MO HealthNet provider reimbursement rates as compared to one hundred percent of the Medicare reimbursement rates and compared to the average dental reimbursement rates paid by third-party payors licensed by the state. The MO HealthNet division shall, by July 1, 2008, provide to the general assembly a four-year plan to achieve parity with Medicare reimbursement rates and for third-party payor average dental reimbursement rates. Such plan shall be subject to appropriation and the division shall include in its annual budget request to the governor the necessary funding needed to complete the four-year plan developed under this subdivision.

2. Additional benefit payments for medical assistance shall be made on behalf of those eligible needy children, pregnant women and blind persons with any payments to be made on the basis of the reasonable cost of the care or reasonable charge for the services as defined and determined by the MO HealthNet division, unless otherwise hereinafter provided, for the following:

(1) Dental services;

(2) Services of podiatrists as defined in section 330.010;

(3) Optometric services as described in section 336.010;

(4) Orthopedic devices or other prosthetics, including eye glasses, dentures, [hearing aids,] and wheelchairs;

(5) Hospice care. As used in this subdivision, the term "hospice care" means a coordinated program of active professional medical attention within a home, outpatient and inpatient care which treats the terminally ill patient and family as a unit, employing a medically directed interdisciplinary team. The program provides relief of severe pain or other physical symptoms and supportive care to meet the special needs arising out of physical, psychological, spiritual, social, and economic stresses which are experienced during the final stages of illness, and during dying and bereavement and meets the Medicare requirements for participation as a hospice as are provided in 42 CFR Part 418. The rate of reimbursement paid by the MO HealthNet division to the hospice provider for room and board furnished by a nursing home to an eligible hospice patient shall not be less than ninety-five percent of the rate of reimbursement which would have been paid for facility services in that nursing home facility for that patient, in accordance with subsection (c) of Section 6408 of P.L. 101-239 (Omnibus Budget Reconciliation Act of 1989);

(6) Comprehensive day rehabilitation services beginning early posttrauma as part of a coordinated system of care for individuals with disabling impairments. Rehabilitation services must be based on an individualized, goal-oriented, comprehensive and coordinated treatment plan developed, implemented, and monitored through an interdisciplinary assessment designed to restore an individual to optimal level of physical, cognitive, and behavioral function. The MO HealthNet division shall establish by administrative rule the definition and criteria for designation of a comprehensive day rehabilitation service facility, benefit limitations and payment mechanism. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this subdivision shall become effective only if it complies with and is subject

to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2005, shall be invalid and void.

3. The MO HealthNet division may require any participant receiving MO HealthNet benefits to pay part of the charge or cost until July 1, 2008, and an additional payment after July 1, 2008, as defined by rule duly promulgated by the MO HealthNet division, for all covered services except for those services covered under subdivisions (15) and (16) of subsection 1 of this section and sections 208.631 to 208.657 to the extent and in the manner authorized by Title XIX of the federal Social Security Act (42 U.S.C. Section 1396, et seq.) and regulations thereunder. When substitution of a generic drug is permitted by the prescriber according to section 338.056, and a generic drug is substituted for a name-brand drug, the MO HealthNet division may not lower or delete the requirement to make a co-payment pursuant to regulations of Title XIX of the federal Social Security Act. A provider of goods or services described under this section must collect from all participants the additional payment that may be required by the MO HealthNet division under authority granted herein, if the division exercises that authority, to remain eligible as a provider. Any payments made by participants under this section shall be in addition to and not in lieu of payments made by the state for goods or services described herein except the participant portion of the pharmacy professional dispensing fee shall be in addition to and not in lieu of payments to pharmacists. A provider may collect the co-payment at the time a service is provided or at a later date. A provider shall not refuse to provide a service if a participant is unable to pay a required payment. If it is the routine business practice of a provider to terminate future services to an individual with an unclaimed debt, the provider may include uncollected co-payments under this practice. Providers who elect not to undertake the provision of services based on a history of bad debt shall give participants advance notice and a reasonable opportunity for payment. A provider, representative, employee, independent contractor, or agent of a pharmaceutical manufacturer shall not make co-payment for a participant. This subsection shall not apply to other qualified children, pregnant women, or blind persons. If the Centers for Medicare and Medicaid Services does not approve the MO HealthNet state plan amendment submitted by the department of social services that would allow a provider to deny future services to an individual with uncollected co-payments, the denial of services shall not be allowed. The department of social services shall inform providers regarding the acceptability of denying services as the result of unpaid co-payments.

4. The MO HealthNet division shall have the right to collect medication samples from participants in order to maintain program integrity.

5. Reimbursement for obstetrical and pediatric services under subdivision (6) of subsection 1 of this section shall be timely and sufficient to enlist enough health care providers so that care and services are available under the state plan for MO HealthNet benefits at least to the extent that such care and services are available to the general population in the geographic area, as required under subparagraph (a)(30)(A) of 42 U.S.C. Section 1396a and federal regulations promulgated thereunder.

6. Beginning July 1, 1990, reimbursement for services rendered in federally funded health centers shall be in accordance with the provisions of subsection 6402(c) and Section 6404 of P.L. 101-239 (Omnibus Budget Reconciliation Act of 1989) and federal regulations promulgated thereunder.

7. Beginning July 1, 1990, the department of social services shall provide notification and referral of children below age five, and pregnant, breast-feeding, or postpartum women who are determined to be eligible for MO HealthNet benefits under section 208.151 to the special supplemental food programs for women, infants and children administered by the department of health and senior services. Such notification and referral shall conform to the requirements of Section 6406 of P.L. 101-239 and regulations promulgated thereunder.

8. Providers of long-term care services shall be reimbursed for their costs in accordance with the provisions of Section 1902 (a)(13)(A) of the Social Security Act, 42 U.S.C. Section 1396a, as amended, and regulations promulgated thereunder.

9. Reimbursement rates to long-term care providers with respect to a total change in ownership, at arm's length, for any facility previously licensed and certified for participation in the MO HealthNet program shall not increase payments in excess of the increase that would result from the application of Section 1902 (a)(13)(C) of the Social Security Act, 42 U.S.C. Section 1396a (a)(13)(C).

10. The MO HealthNet division may enroll qualified residential care facilities and assisted living facilities, as defined in chapter 198, as MO HealthNet personal care providers.

11. Any income earned by individuals eligible for certified extended employment at a sheltered workshop under chapter 178 shall not be considered as income for purposes of determining eligibility under this section.

12. If the Missouri Medicaid audit and compliance unit changes any interpretation or application of the requirements for reimbursement for MO HealthNet services from the interpretation or application that has been applied previously by the state in any audit of a MO HealthNet provider, the Missouri Medicaid audit and compliance unit shall notify all affected MO HealthNet providers five business days before such change shall take effect. Failure of the Missouri Medicaid audit and compliance unit to notify a provider of such change shall entitle the provider to continue to receive and retain reimbursement until such notification is provided and shall waive any liability of such provider for recoupment or other loss of any payments previously made prior to the five business days after such notice has been sent. Each provider shall provide the Missouri Medicaid audit and compliance unit a valid email address and shall agree to receive communications electronically. The notification required under this section shall be delivered in writing by the United States Postal Service or electronic mail to each provider.

13. Nothing in this section shall be construed to abrogate or limit the department's statutory requirement to promulgate rules under chapter 536.

14. Beginning July 1, 2016, and subject to appropriations, providers of behavioral, social, and psychophysiological services for the prevention, treatment, or management of physical health problems shall be reimbursed utilizing the behavior assessment and intervention reimbursement codes 96150 to 96154 or their successor codes under the Current Procedural Terminology (CPT) coding system. Providers eligible for such reimbursement shall include psychologists.

15. There shall be no payments made under this section for gender transition surgeries, cross-sex hormones, or puberty-blocking drugs, as such terms are defined in section 191.1720, for the purpose of a gender transition.

If a mother tests positive for hepatitis B, the physician or person who professionally undertakes the pediatric care of a newborn shall also administer the appropriate doses of hepatitis B vaccine and hepatitis B immune globulin (HBIG) in accordance with the current recommendations of the Advisory Committee on Immunization Practices (ACIP). - (10) "Water resources", any Missouri water source occurring on the surface, in natural or artificial channels, lakes, reservoirs, or impoundments, and in subsurface aquifers which are available or which may be made available.

2. In order to protect the access, use, and enjoyment of Missouri's water resources, it shall be unlawful for any person to export water resources outside the state of Missouri unless such person holds a water exportation permit issued by the department, subject to the following exemptions:

- (1) If the withdrawal and end use of water resources are within thirty miles of the border of the state, any person exempt under the provision of this section shall report to the director annually

the person's water use volumes and withdrawal rates in a format and timeline determined by the director. Such report shall be made available to the public by the department on the department's website. Such report shall also be provided to the commission; and

(2) Exportation of bottled water, or water packaged in containers intended for single use.

3. It shall be unlawful for any person to withdraw water from any water resource for exportation outside the state of Missouri by use of a pipeline facility, unless the withdrawal and ultimate end use of the water by the pipeline facility is within thirty miles of the state border. Any person who withdraws water for exportation under this subsection shall annually report the water use volumes, withdrawal rates, and end use to the department in a manner and on timelines determined by the department.

4. The director shall review each water exportation permit application and all supporting materials to ensure all the following conditions have been met prior to accepting a water exportation permit application for public comment and review by the commission:

(1) There are water resources available in the volumes and withdrawal rates requested by the applicant for export;

(2) The applicant has demonstrated both a present need and beneficial use for the water resources. In making the determination of need and beneficial use, the director shall consider the availability of all water sources, whether in state or out of state, along with other relevant factors as the director and the commission deem appropriate;

(3) The volume and withdrawal rates requested by the applicant shall not interfere with existing and projected in-state beneficial uses;

(4) The applicant has demonstrated that water in the amounts and rates requested can feasibly be exported to meet its intended beneficial uses;

(5) The applicant has provided relevant information and the director and the commission confirmed that issuance of a water exportation permit is necessary for the beneficial use of the applicant or the applicant's customers, and the beneficial use at the end use location is not reasonably attainable through a method other than granting a water exportation permit under this section;

(6) In the event of a conflict between the beneficial use outside the state and the beneficial use needs in the state, the director and the commission shall prioritize the beneficial use needs of the state and its citizens over the applicant or other state; and

(7) Whenever a person applies for a water exportation permit or water exportation permit renewal, the department shall send a written notice within thirty business days after receiving the permit application to the county commission of the county where the water for exportation is located.

5. Within one hundred twenty days after the receipt of a complete application, the director shall determine whether the applicant complied with provisions of subsection 3 of this section. The director shall, after making such determination, hold a thirty-day public comment period regarding the director's determination. Within sixty days after the comment period, the director shall recommend approval or denial of the permit. Such recommendation, along with all public comments, shall be submitted to the commission. The commission shall have a public hearing within thirty days after receipt of the director's recommendation. This public hearing may be scheduled during one of the commission's regular scheduled meetings. The commission shall make a final decision to approve or deny the water exportation permit within thirty days after the public hearing. A three-fourths majority of the commission members present shall be required to approve the issuance or renewal of a water exportation permit.

(1) To renew a valid water exportation permit, an applicant shall file a renewal application for a water exportation permit with the department no later than two hundred seventy-one days prior to the expiration of the existing water exportation permit. The applicant, director, and the commission shall follow the same procedures and timelines as required for the issuance of a new water exportation permit under this section. The director may impose additional conditions to address any substantial or material change in factors under subsection 3 of this section or may deny a renewal application as necessary to comply with this section based on any such substantial or material changes in factors under subsection 3 of this section. If the director or the commission are in the process of reviewing the renewal application before the final decision is made and the existing applicant's water exportation permit expires, such applicant shall be able to operate under the terms of the expired water exportation permit until a final decision is made by the commission on the renewal of such permit.

(2) In the absence of an appeal as provided under chapter 536, the decision of the commission shall be final.

6. A water exportation permit shall be in effect for three years from the date of issuance. The permit holder shall annually report the water use volumes, withdrawal rates, and end use to the department in a manner and on timelines determined by the department. Such report shall be made available to the public on the department's website.

7. The water exportation permit application shall include all water exportation requested by the applicant. The water exportation permit may be approved in whole or in part by the director or the commission. This section shall be interpreted to allow one applicant to include multiple water withdrawals for exportation from various locations within one water exportation permit application.

8. A water exportation permit application shall include a designee or agent in the state of Missouri for service of process and to receive other notices.

9. A major water user, as defined in section 256.400, may request the department to reevaluate any existing water exportation permit using the criteria under subsection 3 of this section. The department shall create a mechanism for a major water user to submit a request for reevaluation and shall provide the major water user with the director's findings within one hundred and twenty days of the request for reevaluation. After reevaluating the permit, the director shall impose additional conditions necessary for the continued exportation of water outside the state if the director determines that the existing permit is negatively impacting the requesting major water user's beneficial use of his or her water resources. The director's decision to modify or to decline to modify the conditions in an existing permit pursuant to this subsection shall be subject to approval by the commission.

10. Nothing in this section shall preclude a person from bringing any constitutional, statutory, or common law claim to vindicate or otherwise defend the person's water rights. A permit issued under this section shall not serve as a defense to any claim brought against a water permit holder for the infringement of water rights. In addition, any person harmed by the issuance of a water exportation permit may bring an injunctive action or other appropriate action to enforce the provisions of this section. Suits may be brought in the county where the defendant's principal place of business is located or where the withdrawal of water occurred in violation of this section.

11. If the attorney general receives a complaint that provisions of this section have been violated, or, at the request of the department, the attorney general shall bring an injunctive action or other appropriate action in the name of the people of the state to enforce provisions of this section. Suit may be brought in Cole County, or in any county where the defendant's principal place of business is located or where the withdrawal of water occurred in violation of this section.

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.

Matter in bold-face type is proposed language.

Any member of the commission deemed to have violated any provision of this section shall forfeit their office upon such finding of a violation.

12. Whenever a state of emergency is declared by the governor under section 44.100 for all or any part of the state, based on drought conditions, the department shall reevaluate any existing water exportation permit. Any reevaluation completed under this section shall use the criteria under subsection 3 of this section. After reevaluation of the permit is complete, the department shall have the authority to impose additional conditions or revoke the permit if necessary for the continued exportation of water outside the state if the director determines that the existing permit negatively impacts beneficial use of water resources. The director's decision to modify, revoke, or make no changes to the permit shall be subject to the approval or denial of the commission.

SECTION B. SEVERABILITY CLAUSE. — If any provision of subsection 3 of section 640.406 of this act or the application thereof to anyone or to any circumstance is held invalid, the remainder of those sections and the application of such provisions to others or other circumstances shall not be affected thereby.

Greenhouse inspection shall be optional and any grower of greenhouse plants who may desire or find need for a certificate of greenhouse inspection may obtain semiannual inspection of his greenhouse, premises and plants, by making application to the state entomologist. This semiannual inspection and certification of greenhouses shall be performed under the same general provisions as apply to the annual inspection of nurseries. Greenhouse inspection certificates shall expire on November thirtieth of each year.

3. All nurseries in this state shall be inspected at least once each year to ascertain whether they are infested or infected with plant pests and shall comply with the affidavit requirements under paragraph (d) of subdivision (1) of subsection 5 of this section. Upon full payment of the fee and submission of the affidavit each nurseryman shall receive a written notice of the findings of such inspection along with a nursery inspection certificate; except that, the state entomologist may withhold certification of a nursery pending eradication of extremely serious or abundant plant pests or weeds of such nature which would prevent the adequate inspection of such nursery. This certificate shall be used in connection with the shipment or movement of any nursery stock shown to be apparently free of harmful and destructive plant pests or other nursery stock from which harmful and destructive plant pests have been eliminated. All nursery inspection certificates shall expire on September thirtieth of each year. Each nursery shall be allowed one retail sales outlet per certificate. Additional outlets shall require separate nursery dealer registration-inspection certificates. When the findings of the annual inspection of a nursery shall in the opinion of the state entomologist warrant such action, additional inspections of the nursery may be made and the nursery may be charged a fee sufficient to cover the cost of such reinspection.

4. By notice in writing the state entomologist may require a nurseryman to hold any variety or any amount of nursery stock for inspection or reinspection by quarantining such nursery stock whenever such action is necessary to determine that it is free from pests or to allow time to eradicate any such pests. The state entomologist may further order the removal from sale and the treatment or destruction of any nursery stock infested or infected with especially injurious pests or nursery

stock which is not viable or is in such damaged or desiccated condition as to be incapable of reasonable growth. No compensation shall be paid for any stock ordered destroyed.

5. (1) Each nursery dealer, before selling or offering for sale or otherwise distributing nursery stock within this state, shall annually obtain a nursery dealers' registration-inspection certificate for each individual location from which the dealer sells or offers for sale nursery stock. Each nursery dealer shall make application on forms to be provided by the state entomologist for each individual location, which shall include:

(a) The name and complete address of the nursery dealer's place of business for which such certificate is requested;

(b) A declaration that applicant will obtain and distribute only inspected and certified nursery stock; **and**

(c) An up-to-date listing of all sources from which **[he]** the nursery dealer secures nursery stock; **and**

(d) An affidavit that the nursery dealer shall not knowingly and intentionally import, export, buy, sell, transport, distribute, or propagate any viable plant portion or seeds of:

a. Climbing euonymus (Euonymus fortune variety Coloratus), all varieties and cultivars of Japanese honeysuckle (Lonicera japonica), or all varieties and cultivars of Sericea lespedeza (Lespedeza cuneata), or perilla mint (perilla frutescens) on or after January 1, 2027; or

b. Burning bush (Euonymus alatus Compactus) or all varieties and cultivars of Callery pear (Pyrus calleryana) on or after January 1, 2029.

(2) Each nursery dealer shall pay, at the time of making application, the annual registration-inspection fee as set forth in the rules made pursuant to sections 263.010 to 263.180.

(3) All nursery dealer registration-inspection certificates shall expire on September thirtieth of each year.

(4) The state entomologist may inspect or cause to be inspected the premises of any nursery dealer including any sales yard, packing shed, nursery stock on hand or equipment, for the presence of dangerous and destructive plant pests which may be disseminated on nursery stock.

6. By notice in writing the state entomologist may require a nursery dealer to hold any variety or any amount of nursery stock by quarantining such nursery stock whenever such action is necessary to determine that it is free from pests or to allow time to eradicate any such pests. The state entomologist may further order the removal from sale and the treatment or destruction of any nursery stock infested or infected with especially injurious pests, or nursery stock which is not viable or is in such damaged or desiccated condition as to be incapable of reasonable growth. No compensation shall be paid for any stock ordered destroyed.

7. Any person in need of a special inspection and certification of nursery stock, other plants or plant products may upon request to the state entomologist have same inspected for plant pests. A fee sufficient to cover the cost of such inspection or certificate, or both, may be charged. Upon completion of the inspection and payment of the fee, a certificate of inspection shall be issued provided the plants or plant products are free of harmful plant pests. The state entomologist may enter into agreements with various persons or companies, to carry out the requirements of this state and importing states or countries.

8. All moneys received for any inspection fee or other receipts under this law shall be deposited in the state treasury and shall be subject to appropriation by the general assembly.

An excavator shall serve notice of intent to excavate to the notification center by toll-free telephone number operated on a twenty-four hour per-day, seven day per-week basis [or by facsimile] or by completing notice via the internet at least two working days, but not more than ten working days, before the expected date of commencing the excavation activity. The notification center receiving such notice shall inform the excavator of all notification center participants to whom such notice will be transmitted and shall promptly transmit all details of such notice provided under subsection 2 of this section to every notification center participant in the area of excavation.

2. Notices of intent to excavate given pursuant to this section shall contain the following information:

(1) The name and telephone number of the person filing the notice of excavation, if the telephone number is different than that of the excavator, and the name, address, and telephone number of the excavator [and whether the excavator's telephone is equipped with a recording device];

(2) The date the excavation activity is expected to commence, the depth of planned excavation and, if applicable, that the use of explosives is anticipated on the excavation site, and the type of excavation being planned, including whether the excavation involves trenchless excavation;

(3) The [facsimile number,] email address[,] and cellular telephone number of the excavator, if any;

(4) The name of the person primarily responsible for conducting the excavation or managing the excavation process, and if any of the information stated in subdivision (1) or (3) of this subsection is different for the person primarily responsible for the excavation, the notice shall also state the same information for that person;

(5) A detailed description accepted by the notification center sufficient for the location of the excavation by any one or more of the following means: by reference to a specific street address, or by description of location in relation to the nearest numbered, lettered, or named state or county road or city street for which a road sign is posted, or by latitude and longitude including the appropriate description in degrees, minutes, and seconds, or by state plane coordinates;

(6) A description of the site of excavation by approximate distance and direction from the nearest state or county road or city street or intersection of such roads or streets unless previously provided under subdivision (5) of this subsection, and the proximity of the site to any prominent landmarks;

(7) A description of the location or locations of the excavation at the site described by direction and approximate distance in relation to prominent features of the site, such as existing buildings or roadways;

(8) Directions as to how to reach the site of the excavation from the nearest such road, if the excavation is not on or near a posted numbered, lettered, or named state or county road or city street.

3. When the location of the planned excavation cannot be clearly identified solely by the means described in subdivision (5) of subsection 2 of this section, the excavator may also designate the planned excavation route or area to be excavated by physical white lining using white paint, stakes, whisksers, or other similar markings on and along the area to be excavated, or by electronic white lining when available through the notification center. Such information may be provided to the notification center prior to or with the notification required under this section. Nothing in this section shall conflict with sections 319.024, 319.025, or 319.030.

4. The notification center shall transmit all details of such notice as required by this section.

[4.] 5. A record of each notice of intent to excavate shall be maintained by the notification center for a period of five years. The record shall include the date the notice was received and all information required by subsection 2 of this section which was provided by the excavator and a record of the underground facility owners notified by the notification center. If the notification center creates a record of the notice by telephonic recording, such record of the original notice shall be maintained for one year from the date of receipt. Records of notices to excavate maintained by the notification center in electronic form shall be deemed to be records under this subsection. Persons holding records of notices of intent to excavate and records of information provided to the excavator by the notification center or owner or operator of the facility shall make copies of such records available for a reasonable copying fee upon the request of the owner or operator of the underground facilities or the excavator filing the notice.

[5.] 6. If in the course of excavation the person responsible for the excavation operations discovers that the owner or operator of the underground facility who is a participant in a notification center has incorrectly located the underground facility, or discovers an underground facility that is not marked, he or she shall notify the notification center which shall inform the underground facility owner. The underground facility owner shall respond to the incorrect locate notification within two hours of receipt of the notification by contacting the person responsible for the excavation or by correctly locating their underground facility. The person responsible for maintaining records of the location of underground facilities for the notification center participant shall correct such records to show the actual location of such facilities, if current records are incorrect.

[6.] 7. When markings have been provided in response to a notice of intent to excavate, excavators may commence or continue to work within the area described in the notice [for so] until the notice of intent to excavate expiration date as long as the markings are visible. If an excavator is unable to begin the excavation within ten working days as described in the request, the excavator shall make a relocate request before beginning the excavation. If markings become unusable due to weather, construction or other cause, the excavator shall contact the notification center to request remarking. Such notice shall be given in the same manner as original notice of intent to excavate, and the owner or operator shall remark the site in the same manner, within the same time, as required in response to an original notice of intent to excavate. Each excavator shall exercise reasonable care not to unnecessarily disturb or obliterate markings provided for location of underground facilities. If remarking is required due to the excavator's failure to exercise reasonable care, or if repeated unnecessary requests for remarking are made by an excavator even though the markings are visible and usable, the excavator may be liable to the owner or operator for the reasonable cost of such remarking. Nothing in this section shall allow any person other than the facility owner or their representative to mark or relocate any underground facility.

[7.] 8. Before commencing excavation, the excavator shall determine best practices for confirming the horizontal and vertical location of facilities at the site of excavation considering conditions at the site including geology, access to the site, and the presence of paved surfaces. Hand digging or soft digging shall be used as a best practice when possible.

[8.] 9. In the event of any damage, dislocation, or disturbance of any underground facility in connection with any excavation, the person responsible for the excavation operations shall notify the notification center. This subsection shall be deemed to require reporting of any damage,

Matter in bold-face type is proposed language.

dislocation, or disturbance to trace wires, encasements, cathode protection, permanent above-ground stakes, or other such items utilized for protection of the underground facility. The excavator shall immediately contact 911 when any damage or contact with a pipeline results in a release from the pipeline of hazardous liquid or gas to occur.

[9.] 10. In the event of any damage, dislocation, or disturbance to any underground facility or any protective devices required to be reported by the excavator under subsection [8] 9 of this section in advance of or during the excavation work, the person responsible for the excavation operations shall not conceal or attempt to conceal such damage, dislocation, or disturbance, nor shall that person attempt to make repairs to the facility unless authorized by the underground facility owner. In the case of sewer lines or facilities, emergency temporary repairs may be made by the excavator after notification without the owners' or operators' authorization to prevent further damage to the facilities. Such emergency repairs shall not relieve the excavator of responsibility to make notification as required by subsection [8] 9 of this section.

[10.] 11. No later than [April 1, 2015, and each year thereafter] the date determined annually by Common Ground Alliance, or any successor organization, each underground facility owner who owns or operates electric, gas, or pipeline facilities shall submit to a central repository designated by the notification center a report of damages experienced by its facilities for the prior calendar year. The notification center shall determine the minimum information to be reported. All data submitted shall be aggregated and anonymous. Information provided by the underground facility owner specific to damage data submitted shall be accessible only to the underground facility owner unless otherwise designated by the underground facility owner.

319.027. DESIGN REQUESTS, HOW MADE — MARKING LOCATION REQUIRED. — 1. Any person may make design requests by contacting the notification center. Such design requests shall include all information deemed necessary by the notification center to complete the notice, including the identification of the person and a description of the location of the project being designed and other information similar to that required of excavators under section 319.026.

2. Design requests shall be made to the notification center at least five working days[, but not more than ten working days,] before the date the person has requested receiving the information from the underground facility owner. Upon receipt of a design request, the notification center shall inform the person of the name of all notification center participants to whom the notice will be transmitted and shall promptly transmit such notice to the appropriate underground facility owners.

3. Every underground facility owner who receives a design request shall mark the location of the facility, or contact the person making the request, within five working days after the date the notice was received from the notification center. If the person making the request was contacted as an alternative to marking location, the person and the underground facility owner shall mutually agree on a schedule and method for providing the information, provided that the facility shall be marked within five working days if the facility owner and the person making the request are unable to agree.

4. No excavation may be commenced based upon information received through a design request. Obtaining information through a design request shall not excuse any person commencing an excavation from making notice and obtaining information under sections 319.025 and 319.026 concerning the possible location of any underground facilities which may be affected.

319.030. NOTIFICATION OF LOCATION OF UNDERGROUND FACILITY, WHEN, HOW — FAILURE TO PROVIDE NOTICE OF LOCATION, EFFECT. — 1. Every person owning or operating an underground facility to whom notice of intent to excavate is required to be given shall, upon

receipt of such notice as provided in this section from a person intending to commence an excavation, inform the excavator as promptly as practical, but not in excess of two working days, unless the excavator agrees to extend the start date and time provided in the locate request through methods established by the notification center, of the approximate location of underground facilities in or near the area of the excavation so as to enable the person engaged in the excavation work to locate the facilities in advance of and during the excavation work, provided that no excavation shall begin earlier than the scheduled excavation date provided on the locate request unless the excavator has confirmed that all underground facilities have been located. The two working days provided for notice in this subsection and subsection 1 of section 319.026 shall begin at 12:00 a.m. following the receipt of the request by the notification center. Each underground facility owner receiving notifications from the notification center by use of the internet shall, after December 31, 2014, use the locate status system provided by the notification center. Those underground facility owners that do not receive notifications by use of the internet shall, no later than January 1, 2016, provide locate status to the notification center by an alternate method provided by the notification center. If the excavator states in the notice of intent to excavate that the excavation will involve trenchless technology, the owner or operator shall inform the excavator of the depth, to the best of his [or], her, or its knowledge or ability, of the facility according to the records of the owner or operator. The owner or operator shall provide the approximate location of underground facilities by use of markings as designated in section 319.015. Persons representing the excavator and the owner or operator shall meet on the site of excavation within two working days of a request by either person for such meeting for the purpose of clarifying markings, or upon agreement of the excavator and owner or operator, such meeting may be an alternate means of providing the location of facilities by originally marking the approximate location of the facility at the time of the meeting. If upon receipt of a notice of intent to excavate, an owner or operator determines that he or she neither owns or operates underground facilities in or near the area of excavation, the owner or operator shall within two working days after receipt of the notice, inform the excavator that the owner or operator has no facilities located in the area of the proposed excavation. The owner or operator of the underground facility shall make notice to the excavator that no facilities are located in the area of excavation by contacting the excavator by any of the following methods:

- (1) By calling the primary number of the excavator or by calling the telephone number of the responsible person as provided by the excavator under subdivision (4) of subsection 2 of section 319.026;
- (2) By leaving a message on the recording device for such numbers;
- (3) By calling the cellular telephone number of the excavator or responsible person;
- (4) By notifying the excavator by [facsimile or] electronic mail at [numbers or] addresses stated by the excavator in the notice of excavation made under subsection 2 of section 319.026;
- (5) By marking "clear" or "OK" at the site of excavation;
- (6) By verbally informing the excavator in person.

If the only means of contacting the excavator is one or more telephone numbers provided by the excavator in the notice of excavation under section 319.026, then two attempts by the underground facility owner to contact the excavator at one of the telephone numbers provided shall constitute compliance with this subsection; or

- (7) By use of a locate status system.

2. A record of the date and means of informing the excavator that no facilities were located by the owner or operator shall be included in the written records of the underground facility owner regarding each specific notice of excavation and shall be retained for a period of five years.

3. If the owner or operator notifies the excavator that the area of excavation cannot be determined from the description provided by the excavator through the notice required by this section, the excavator shall provide clarification of the area of excavation by marking the area with white flags or white paint, or by providing project plans to the owner or operator, or by meeting on the site of the excavation with representatives of the owner or operator as provided for in this section.

4. In the event that a person owning or operating an underground facility fails to comply with the provisions of subsection 1 of this section after notice given by an excavator in compliance with section 319.026, the excavator, prior to commencing the excavation, shall give a second notice to the notification center as required by section 319.026 stating that there has been no response to the original notice given under section 319.026. After the receipt of the notice stating there has been "no response", the owner or operator of an underground facility shall, within two hours of the receipt of such notice, mark its facilities or contact and inform the excavator of when the facilities will be marked; provided, however, that for "no response" notices made to the notification center by 2:00 p.m., the markings shall be completed on the working day the notice is made to the notification center, and provided that for "no response" notices made to the notification center after 2:00 p.m., the markings shall be completed no later than 10:00 a.m. on the next working day. If an underground facility owner fails to mark its facilities or contact the excavator as required by this subsection, the excavator may commence the excavation. Nothing in this subsection shall excuse the excavator from exercising the degree of care in making the excavation as is otherwise required by law.

5. For purposes of this section, a period of two working days begins at 12:00 a.m. following when the request is made.

319.031. SEWER SYSTEM OWNER DUTIES UPON NOTIFICATION OF INTENT TO EXCAVATE.

— 1. In addition to the other requirements of section 319.030, the response to a notice of intent to excavate received by a sewer system owner, when such owner has underground facilities located in the area of excavation identified in the notice and when the notice indicates that trenchless excavation methods will be used, shall include a determination of whether sewer service connections exist in the area of the excavation.

2. If the sewer system owner determines that sewer service connections exist in the area of the excavation identified in a notice of intent to excavate, the owner shall provide his [or, her, or its] best available information, or notice that the information does not exist, regarding the location of such connections to the excavator by any of the following methods:

(1) Placing a triangular green mark at the approximate location of the sewer service connection pointing in the direction of the customer structure serviced;

(2) Providing electronic copies of the information to the excavator;

(3) Delivering copies of the information to the excavator by [facsimile or by] other agreed upon means; or

(4) Arranging to meet the excavator at the site of the excavation to provide the information.

3. Providing the best available information, or notice that the information does not exist, regarding the location of sewer service connections that exist in the area of excavation identified in a notice of intent to excavate shall constitute full compliance with this section, and a sewer system owner shall not be liable to any party for damages or injuries resulting from an excavation if they are in compliance with this section.

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.
Matter in bold-face type is proposed language.

4. Providing the best available information regarding the location of sewer service connections that exist in the area of excavation identified in a notice of intent to excavate shall not in and of itself constitute ownership, operation, control, or management of sewer service lines by a sewer system owner.

319.034. ACCURATE LOCATION OF FACILITIES — DAMAGES FOR INCORRECT INFORMATION, IMMUNITY FROM EXCAVATOR LIABILITY, WHEN. — For purposes of sections 319.010 to 319.050, the location of underground facilities provided by a facility owner or operator in accordance with section 319.026 to any person engaging in scheduled excavating shall be accurate. If any underground facility is damaged by an excavator due to the furnishing of incorrect information by the facility owner or operator, the excavator shall not be subject to any liability resulting from damage to the underground facility as a result of the excavating, provided that such person engaging in scheduled excavating complies with the requirements of sections 319.010 to 319.050 with respect to such excavation and there is no evidence visible and obvious to the excavator of the presence of a mismarked underground facility.

319.035. COMPLIANCE WITH LAW STILL REQUIRES EXCAVATION TO BE MADE IN CAREFUL AND PRUDENT MANNER — FAILURE TO GIVE NOTICE OR MARK FACILITIES, REBUTTABLE PRESUMPTION OF NEGLIGENCE. — 1. Obtaining information as required by sections 319.010 to 319.050 does not excuse any person making any excavation from doing so in a careful and prudent manner.

2. Nothing in sections 319.010 to 319.050 shall relieve an excavator from the obligation to excavate in a safe and prudent manner, nor shall it absolve an excavator from liability for damage to underground facilities except as provided in section 319.034.

3. The failure of any excavator to give notice of proposed excavation activities as required by this chapter shall be a rebuttable presumption of negligence on his or her part in the event that such failure shall cause injury, loss, or damage. In addition to any penalties provided herein, liability under common law may apply.

4. The failure of an underground facility owner or a locator or other contractor engaged by the facility owner to mark [his or her] the facility owner's facilities that are located in an area of excavation described in a notice of intent to excavate received by the underground facility owner, as required by section 319.030, or the failure of an underground facility owner to be a notification center participant, consistent with the provisions of section 319.022, shall be a rebuttable presumption of negligence on the part of such owner, and of the locator or other contractor engaged by the facility owner, in the event that such failure shall cause injury, loss, or damage. In addition to any penalties provided herein, liability under common law may apply.

2. The coordinating board shall determine eligibility for renewed assistance on the basis of annual applications and annual evaluations of [expected family contribution] student aid index. In awarding renewal grants, the coordinating board may increase or decrease the amount of financial assistance to an applicant if such action is warranted by a change in the financial condition of the applicant, the applicant's spouse or parents, or the availability of funds for that year. An applicant who is an undergraduate postsecondary student at an approved private, public, or virtual institution and who meets the other eligibility criteria shall be eligible for financial assistance, with a minimum and maximum award amount as follows:

(1) For academic years 2010-11, 2011-12, 2012-13, and 2013-14:

(a) One thousand dollars maximum and three hundred dollars minimum for students attending institutions classified as part of the public two-year sector;

(b) Two thousand one hundred fifty dollars maximum and one thousand dollars minimum for students attending institutions classified as part of the public four-year sector, including State Technical College of Missouri; and

(c) Four thousand six hundred dollars maximum and two thousand dollars minimum for students attending approved private institutions;

(2) For the 2014-15 academic year [and subsequent years] through the 2024-25 academic year:

(a) One thousand three hundred dollars maximum and three hundred dollars minimum for students attending institutions classified as part of the public two-year sector; and

(b) Two thousand eight hundred fifty dollars maximum and one thousand five hundred dollars minimum for students attending institutions classified as part of the public four-year sector, including State Technical College of Missouri, approved private institutions, or approved virtual institutions; and

(3) For the 2025-26 academic year and all subsequent academic years:

(b) Three thousand five hundred dollars maximum and one thousand seven hundred fifty dollars minimum for students attending institutions classified as part of the public four-year sector, including State Technical College of Missouri, approved private institutions, or approved virtual institutions.

2. All students with [an expected family contribution] a student aid index of twelve thousand dollars or less shall receive at least the minimum award amount for his or her institution. Maximum award amounts for an eligible student with [an expected family contribution] a student aid index above seven thousand dollars shall be reduced by ten percent of the maximum [expected family contribution] student aid index for his or her increment group. Any award amount shall be reduced by the amount of a student's payment from the A+ schools program or any successor program to it. For purposes of this subsection, the term "increment group" shall mean a group organized by [expected family contribution] student aid index in five hundred dollar increments into which all eligible students shall be placed.

3. If appropriated funds are insufficient to fund the program as described, the maximum award shall be reduced across all sectors by the percentage of the shortfall. If appropriated funds exceed the amount necessary to fund the program, the additional funds shall be used to increase the number of recipients by either extending the deadline for filing an application or raising the cutoff for the [expected family contribution] student aid index rather than by increasing the size of the award, as determined by the department.

4. Every three years, beginning with the 2025-26 academic year [2009-10], the award amount may be adjusted to increase no more than the Consumer Price Index for All Urban Consumers (CPI-U), 1982-1984 = 100, not seasonally adjusted, as defined and officially recorded by the United States Department of Labor, or its successor agency, for the previous academic year. The coordinating board shall prepare a report prior to the legislative session for use of the general assembly and the governor in determining budget requests which shall include the amount of funds necessary to maintain full funding of the program based on the baseline established for the program upon the effective date of sections 173.1101 to 173.1107. Any increase in the award amount shall not become effective unless an increase in the amount of money appropriated to the program necessary to cover the increase in award amount is passed by the general assembly.

The board of regents of each state college and each state teachers college shall have power and authority to confer upon students, by diploma under the common seal, such degrees as are usually granted by such colleges, and additional degrees only when authorized by the coordinating board for higher education in circumstances in which offering such degree would not unnecessarily duplicate an existing program, collaboration is not feasible or a viable means of meeting the needs of students and employers, and the institution has the academic and financial capacity to offer the program in a high-quality manner. In the case of nonresearch doctoral degrees in allied health professions, an institution may be authorized to offer such degree independently if offering it in collaboration with another institution would not increase the quality of the program or allow it to be delivered more efficiently. Such boards shall have the power and authority to confer degrees in engineering only in collaboration with the University of Missouri, provided that such collaborative agreements are approved by the governing board of each institution and that in these instances the University of Missouri will be the degree-granting institution. Should the University of Missouri decline to collaborate in the offering of such programs, one of these institutions may seek approval of the program through the coordinating board for higher education's comprehensive review process when doing so would not unnecessarily duplicate an existing program, collaboration is not feasible or a viable means of

The committee shall issue a license to each person who files an application and fee as required by the provisions of sections 337.600 to 337.689 and who furnishes evidence satisfactory to the committee that the applicant has complied with the provisions of subsection 2 of this section. The license shall refer to the individual as a licensed master social worker and shall recognize that individual's right to practice licensed master social work as defined in section 337.600.

5. (1) Any person who holds a valid current master social work license issued by another state, a branch or unit of the military, a territory of the United States, or the District of Columbia, and who has been licensed for at least one year in such other jurisdiction, may submit to the committee an application for a master social work license in Missouri along with proof of current licensure and proof of licensure for at least one year in the other jurisdiction.

(2) The committee shall:

The committee may require an applicant to take and pass an examination specific to the laws of this state; or

(3) (a) The committee shall not waive any examination, educational, or experience requirements for any applicant who has had his or her license revoked by an oversight body outside the state; who is currently under investigation, who has a complaint pending, or who is currently under disciplinary action, except as provided in paragraph (b) of this subdivision, with an oversight body outside the state; who does not hold a license in good standing with an oversight body outside the state; who has a criminal record that would disqualify him or her for licensure in Missouri; or who does not hold a valid current license in the other jurisdiction on the date the committee receives his or her application under this [section] subsection.

(b) If another jurisdiction has taken disciplinary action against an applicant, the committee shall determine if the cause for the action was corrected and the matter resolved. If the matter has not been resolved by that jurisdiction, the committee may deny a license until the matter is resolved.

(4) Nothing in this subsection shall prohibit the committee from denying a license to an applicant under this subsection for any reason described in section 337.630.

(5) Any person who is licensed under the provisions of this subsection shall be subject to the committee's jurisdiction and all rules and regulations pertaining to the practice as a licensed master social worker in this state.

(6) This subsection shall not be construed to waive any requirement for an applicant to pay any fees.

2. Any person holding a current license, certificate of registration, or permit from another state or territory of the United States or the District of Columbia to practice advanced macro social work who has had no disciplinary action taken against the license, certificate of registration, or permit for the preceding five years may be granted a license to practice advanced macro social work in this state if the person meets one of the following criteria:

A political organization organized pursuant to section 527 of such Code shall not be considered a tax-exempt organization.

130.173. CONTRIBUTIONS BY PROHIBITED SOURCES, REPORTING REQUIREMENTS — RECORDKEEPING. — 1. Upon creating, forming, or registering a committee, the treasurer shall file an accompanying certification that no preliminary activity was funded by prohibited sources, whether directly or indirectly.

2. After a committee has been created, formed, or registered, the committee shall not knowingly or willfully receive, solicit, or accept contributions from a prohibited source, whether directly or indirectly.

3. Any report filed pursuant to this chapter shall include an affirmation that the committee has not knowingly or willfully received, solicited, or accepted, directly or indirectly, contributions from a prohibited source.

Receipt of an affirmation by a committee pursuant to this subsection shall create a rebuttable presumption of compliance with this subsection on the part of the committee. Nothing in this subsection shall prohibit the attorney general from pursuing any action pursuant to section 130.188 if the attorney general has found a willful violation of this subsection.

2. Each disclosure report filed pursuant to section 130.041 shall require the treasurer of a committee to affirm that the donor associated with each contribution is not a foreign national and has not knowingly or willfully received, solicited, or accepted, whether directly or indirectly, contributions from one or more prohibited sources aggregating in excess of ten thousand dollars within the four-year period immediately preceding the date of the contribution.

to affirm that it has not knowingly or willfully accepted funds, directly or indirectly, aggregating in excess of ten thousand dollars from one or more prohibited sources within the four-year period immediately preceding the date the expenditure is made. Receipt of an affirmation from a donor that it is not a foreign national shall create a rebuttable presumption that the entity has not knowingly or willingly accepted funds, directly or indirectly, aggregating in excess of ten thousand dollars from one or more prohibited sources. Nothing in this subsection shall prohibit the attorney general from pursuing any action pursuant to section 130.188 if the attorney general has found a willful violation of this subsection.

4. Notwithstanding any provision of this section to the contrary, a donor or entity that makes a contribution to a committee or an expenditure in support of or in opposition to a ballot measure from its own funds obtained through the usual course of business or in any commercial or other transaction from any source and which are not contributions does not violate this section.

5. A committee shall not accept an in-kind contribution from any foreign national or from any individual or entity that has knowingly or willfully accepted funds, directly or indirectly, aggregating in excess of ten thousand dollars from one or more foreign nationals within the four year period immediately preceding the date the in-kind contribution is made. A foreign national shall not make an in-kind expenditure for the purpose of supporting or opposing any ballot measure.

130.179. DECISION-MAKING PROCESS, FOREIGN NATIONALS PROHIBITED FROM PARTICIPATING. — 1. A foreign national may not direct, dictate, control, or directly or indirectly participate in the decision-making process of any person with regard to that person's activities to influence an election on a ballot measure, such as decisions concerning the making of contributions to influence an election on a ballot measure.

2. A foreign national may not solicit, directly or indirectly, the making of a donation, contribution, or expenditure by another person to influence an election on a ballot measure.

3. Nothing in sections 130.170 to 130.188 shall be deemed to create or eliminate any existing rights or duties beyond those specifically enumerated in such sections.

130.185. RIGHT OF PRIVACY FOR DONORS, REQUIREMENTS. — 1. Lawful donors to a tax-exempt organization possess a right of privacy in their donations. Any investigation of an alleged violation of sections 130.170 to 130.188 shall occur in a manner that shields the identity of lawful donors as much as possible. The attorney general shall not collect or require the submission of information on the identity of any donor to a tax-exempt organization other than those directly related to an alleged violation of sections 130.170 to 130.188. Any collection or required submission of information by the attorney general regarding the identity of any donor to a tax-exempt organization beyond that permitted by sections 130.170 to 130.188 shall be deemed a violation of section 105.1500.

2. The attorney general shall not disclose to the public, or another government official not directly involved in the investigation, information revealing the identity of the entity under investigation or any donor to a tax-exempt organization, unless the information is regarding the identity of the entity or of a donor that engaged in conduct prohibited by sections 130.170 to 130.188 after a final determination has been made that the entity or donor violated sections 130.170 to 130.188. The unlawful disclosure of information revealing the identity of any entity under investigation or donor to a tax-exempt organization in connection with a committee shall be deemed a violation of section 105.1500.

130.188. VIOLATIONS, ATTORNEY GENERAL'S AUTHORITY — REFUND OF CONTRIBUTION, WHEN — LOBBYIST VIOLATIONS, SANCTIONS. — 1. (1) If the attorney general has reasonable cause to believe that a person or entity has engaged in, is engaging in, or is about to engage in, a violation of sections 130.170 to 130.185, the attorney general may execute in writing and cause to be served upon any person who is believed to have information, documentary material, or physical evidence relevant to the alleged or suspected violation, a civil investigative demand requiring such person to appear and testify, or to produce relevant documentary material or physical evidence or examination, at such reasonable time and place as may be stated in the civil investigative demand, concerning the subject matter of the investigation. Service of any civil investigative demand, notice, or subpoena may be made by any person authorized by law to serve process or by any duly authorized employee of the attorney general.

(2) In the process of a civil investigative demand being executed pursuant to subdivision (1) of this subsection, the provisions of sections 407.040 to 407.090 shall apply.

2. (1) If the attorney general has reasonable cause to believe that a committee, person, or other entity has engaged in, is engaging in, or is about to engage in, a violation of sections 130.170 to 130.185, the attorney general may bring a civil action to enforce sections 130.170 to 130.188. The provisions of section 130.054 and 105.957 to 105.963 shall not apply to violations of sections 130.170 to 130.188.

(2) A committee, person, or other entity alleged to have violated sections 130.170 to 130.188 shall be provided a notice of the civil action, with opportunity for discovery and opportunity to be heard as provided by law for civil actions generally before being found liable for a violation of sections 130.170 to 130.188.

(3) In all actions brought pursuant to this section, the burden of proof shall be on the attorney general.

(4) (a) Prior to discovery, the court shall set a hearing to determine if there is probable cause to believe that a committee, person, or other entity has violated sections 130.170 to 130.188.

(b) If, after the hearing, the court determines that no probable cause exists to believe that a violation of sections 130.170 to 130.188 has occurred, the court shall enter an order of dismissal.

(c) If, after the hearing, the court determines that probable cause does exist to believe that a violation of sections 130.170 to 130.188 has occurred, the court shall enter an order to that effect and the case should proceed to trial on an expedited basis.

(5) Subject to the provisions of section 130.185, the committee, person, or other entity alleged to have violated sections 130.170 to 130.188 may, at a time to be determined by the court prior to the scheduling of trial, present evidence sufficient to rebut the probable cause finding by making an ex parte presentation of records to the court for in-camera review.

(6) A non-prevailing party under paragraph (c) of subdivision (4) of this subsection has the right to:

(a) An interlocutory expedited appeal; and

(b) A stay of proceedings in the trial court.

3. (1) Within thirty days of a court finding that a committee has violated sections 130.170 to 130.188, the committee shall refund the contribution to the original contributor. In the event of an appeal, the contribution shall be placed in escrow, after which the funds shall be disbursed in accordance with the final order.

(2) If the committee is unable to return the funds, the directors, officers, or executive members of the campaign committee shall be liable in their personal capacity, jointly and severally, for the refund of said funds.

4. Within thirty days of a court finding that a committee, person, or other entity making an expenditure covered by sections 130.170 to 130.188 has violated such sections, the committee, person, or other entity shall disgorge to the attorney general funds in an amount equal to the reported cost of the expenditure. If the committee, person, or entity is unable to disgorge the requisite funds, the person or the directors, officers, or executive members of the committee or other entity shall be liable in their personal capacities, jointly and severally, for the payment of the amount due. In the event of an appeal, the funds subject to disgorgement shall be placed in escrow, after which they shall be disbursed in accordance with the final order.

5. If any lobbyist violates any of the provisions of sections 130.170 to 130.188, the lobbyist's registration may be revoked or suspended and the lobbyist may be enjoined from receiving compensation or making expenditures for lobbying.

6. If the attorney general prevails in an action brought under this section, the court shall award:

(1) Injunctive relief sufficient to prevent the defendant from violating sections 130.170 to 130.188 or engaging in acts that aid or abet violations of such sections; and

(2) Statutory damages up to twice the amount of the prohibited contribution or expenditure.

7. In addition to the penalties in subsection 6 of this section and any other remedies provided by law, if the court finds a knowingly or willful violation of sections 130.170 to 130.188, the court may assess a penalty of up to three times the statutory damages.

The University of Missouri is the state's only public research university [and the exclusive grantor of research doctorates]. As such, [except as provided in section 175.040,] the University of Missouri shall be the only state college or university that may offer research doctorates, doctor of philosophy

(3) "Benefit", recognition, registration, the use of facilities of a public institution of higher learning for meetings or speaking purposes, the use of channels of communication of a public institution of higher learning, or such other assistance, aid, or advantage as is made available to student associations by a public institution of higher learning;

173.1556. BELIEF-BASED STUDENT ASSOCIATIONS, NO ADVERSE ACTION — GRIEVANCE PROCEDURE — EXCEPTION. — 1. (1) No public institution of higher learning shall take any adverse action against a belief-based student association or an applicant to be recognized as such:

(a) Because such association is political, ideological, or religious;

(b) On the basis of such association's viewpoint or expression of the viewpoint by the association or the association's members; or

(2) Leaders referred to in paragraph (c) of subdivision (1) of this subsection shall include, but not be limited to, any person who holds a position within the association that authorizes such person to participate in the leadership or governance of the association or in establishing criteria for the association's leadership or governance.

3. The provisions of this section shall not apply to a belief-based student association if there is substantial evidence that such association's viewpoint or expression of the viewpoint by the association or the association's members would cause a material and substantial disruption to the educational environment or interfere with the rights of others on campus, in accordance with the United States Supreme Court's decision in Healy v. James, 408 U.S. 169 (1972).

174.160. AUTHORITY TO CONFER DEGREES. — 1. The board of regents of each state college and each state teachers college shall have power and authority to confer upon students, by diploma under the common seal, such degrees as are usually granted by such colleges, and additional

degrees only when authorized by the coordinating board for higher education in circumstances in which offering such degree would not unnecessarily duplicate an existing program, collaboration is not feasible or a viable means of meeting the needs of students and employers, and the institution has the academic and financial capacity to offer the program in a high-quality manner. In the case of nonresearch doctoral degrees in allied health professions, an institution may be authorized to offer such degree independently if offering it in collaboration with another institution would not increase the quality of the program or allow it to be delivered more efficiently. Such boards shall have the power and authority to confer degrees in engineering only in collaboration with the University of Missouri, provided that such collaborative agreements are approved by the governing board of each institution and that in these instances the University of Missouri will be the degree-granting institution. Should the University of Missouri decline to collaborate in the offering of such programs, one of these institutions may seek approval of the program through the coordinating board for higher education's comprehensive review process when doing so would not unnecessarily duplicate an existing program, collaboration is not feasible or a viable means of meeting the needs of students and employers, and the institution has the academic and financial capacity to offer the program in a high-quality manner.

2. Notwithstanding sections 172.280 and 174.225 to the contrary, the board of governors of Missouri State University shall have the power and authority to grant doctor of philosophy degrees in disciplines other than engineering and to grant bachelor of science degrees in veterinary technology.

2. A person commits the offense of hazing if he or she knowingly, actively, and not under duress participates in, solicits another person to participate in, or causes or plans a willful act, occurring on or off the campus of a public or private college or university, directed against a student or a prospective member, current member, or former member of an organization operating under the sanction of a public or private college or university, that recklessly endangers the mental or physical health or safety of a student or prospective member, current member, or former member for the purpose of initiation or admission into or continued membership in any such organization to the extent that such person is knowingly placed at probable risk of the loss of life or probable bodily or psychological harm. Acts of hazing include:

(1) Any activity which recklessly endangers the physical health or safety of the student or prospective member, current member, or former member, including but not limited to physical brutality, whipping, beating, branding, exposure to the elements, forced consumption of any food, liquor, drug or other substance, or forced smoking or chewing of tobacco products;

(2) Any activity which recklessly endangers the mental health of the student or prospective member, current member, or former member, including but not limited to sleep deprivation, physical confinement, or other extreme stress-inducing activity; or

(3) Any activity that requires the student or prospective member, current member, or former member to perform a duty or task which involves a violation of the criminal laws of this state or any political subdivision in this state.

[2.] 3. Public or private colleges or universities in this state shall adopt a written policy prohibiting hazing by any organization operating under the sanction of the institution.

[3.] 4. Nothing in this section shall be interpreted as creating a new private cause of action against any educational institution.

[4.] 5. Consent is not a defense to hazing. Section 565.010 does not apply to hazing cases or to homicide cases arising out of hazing activity.

[5.] 6. The offense of hazing is a class A misdemeanor, unless the act creates a substantial risk to the life of the student [or], prospective member, current member, or former member, in which case it is a class D felony.

4. Wherever under [subsection 3 of] this section or otherwise the court is entitled to weigh the evidence and determine the facts for itself, the court may hear and consider additional evidence if the court finds that such evidence in the exercise of reasonable diligence could not have been produced or was improperly excluded at the hearing before the agency. Wherever the court is not entitled to weigh the evidence and determine the facts for itself, if the court finds that there is competent and material evidence which, in the exercise of reasonable diligence, could not have been produced or was improperly excluded at the hearing before the agency, the court may remand the case to the agency with directions to reconsider the same in the light of such evidence. The court may in any case hear and consider evidence of alleged irregularities in procedure or of unfairness by the agency, not shown in the record.

5. The court shall render judgment affirming, reversing, or modifying the agency's order, and may order the reconsideration of the case in the light of the court's opinion and judgment, and may order the agency to take such further action as it may be proper to require; but the court shall not substitute its discretion for discretion legally vested in the agency, unless the court determines that the agency decision was arbitrary or capricious.

6. Appeals may be taken from the judgment of the court as in other civil cases.

The tax authorized by this section shall be in addition to any and all other sales taxes allowed by law, except that no sales tax imposed pursuant to the provisions of this section shall be effective unless the governing body of the ambulance or fire protection district submits to the voters of such ambulance or fire protection district, at a municipal or state general, primary or special election, a proposal to authorize the governing body of the ambulance or fire protection district to impose a tax pursuant to this section.

2. The ballot of submission shall contain, but need not be limited to, the following language:

☐ NO

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.
Matter in bold-face type is proposed language.

If you are in favor of the question, place an "X" in the box opposite "YES". If you are opposed to the question, place an "X" in the box opposite "NO".

3. If a majority of the votes cast on the proposal by the qualified voters voting thereon are in favor of the proposal, then the sales tax authorized in this section shall be in effect and the governing body of the ambulance or fire protection district shall lower the level of its tax rate by an amount which reduces property tax revenues by an amount equal to fifty percent of the amount of sales tax collected in the preceding year. If a majority of the votes cast by the qualified voters voting are opposed to the proposal, then the governing body of the ambulance or fire protection district shall not impose the sales tax authorized in this section unless and until the governing body of such ambulance or fire protection district resubmits a proposal to authorize the governing body of the ambulance or fire protection district to impose the sales tax authorized by this section and such proposal is approved by a majority of the qualified voters voting thereon.

4. All revenue received by a district from the tax authorized pursuant to this section shall be deposited in a special trust fund, and be used solely for the purposes specified in the proposal submitted pursuant to this section for so long as the tax shall remain in effect.

5. All sales taxes collected by the director of revenue pursuant to this section, less one percent for cost of collection which shall be deposited in the state's general revenue fund after payment of premiums for surety bonds as provided in section 32.087, shall be deposited in a special trust fund, which is hereby created, to be known as the "Ambulance or Fire Protection District Sales Tax Trust Fund". The moneys in the ambulance or fire protection district sales tax trust fund shall not be deemed to be state funds and shall not be commingled with any funds of the state. The director of revenue shall keep accurate records of the amount of money in the trust and the amount collected in each district imposing a sales tax pursuant to this section, and the records shall be open to inspection by officers of the county and to the public. Not later than the tenth day of each month the director of revenue shall distribute all moneys deposited in the trust fund during the preceding month to the governing body of the district which levied the tax; such funds shall be deposited with the board treasurer of each such district.

6. The director of revenue may make refunds from the amounts in the trust fund and credit any district for erroneous payments and overpayments made, and may redeem dishonored checks and drafts deposited to the credit of such district. If any district abolishes the tax, the district shall notify the director of revenue of the action at least ninety days prior to the effective date of the repeal and the director of revenue may order retention in the trust fund, for a period of one year, of two percent of the amount collected after receipt of such notice to cover possible refunds or overpayment of the tax and to redeem dishonored checks and drafts deposited to the credit of such accounts. After one year has elapsed after the effective date of abolition of the tax in such district, the director of revenue shall remit the balance in the account to the district and close the account of that district. The director of revenue shall notify each district of each instance of any amount refunded or any check redeemed from receipts due the district.

7. Except as modified in this section, all provisions of sections 32.085 and 32.087 shall apply to the tax imposed pursuant to this section.

hundred inhabitants, or any county of the first classification with more than one hundred eighty-four thousand but less than one hundred eighty-eight thousand inhabitants, or any county with a charter form of government and with more than one million inhabitants, or any county with a charter form of government and with more than two hundred fifty thousand but less than three hundred fifty thousand inhabitants,] When the revenue from the ambulance or fire protection district sales tax is collected for distribution pursuant to section 321.552, the board of the ambulance or fire protection district, after determining its budget for the year pursuant to section 67.010 and the rate of levy needed to produce the required revenue and after making any other adjustments to the levy that may be required by any other law, shall reduce the total operating levy of the district in an amount sufficient to decrease the revenue it would have received therefrom by an amount equal to fifty percent of the previous fiscal year's sales tax receipts. Loss of revenue due to a decrease in the assessed valuation of real property located within the ambulance or fire protection district as a result of general reassessment and from state-assessed railroad and utility distributable property based upon the previous fiscal year's receipts shall be considered in lowering the rate of levy to comply with this section in the year of general reassessment and in each subsequent year. In the event that in the immediately preceding year the ambulance or fire protection district actually received more or less sales tax revenue than estimated, the ambulance or fire protection district board may adjust its operating levy for the current year to reflect such increase or decrease. The director of revenue shall certify the amount payable from the ambulance or fire protection district sales tax trust fund to the general revenue fund to the state treasurer.

2. Except that, in the first year in which any sales tax is collected pursuant to section 321.552, any taxing authority subject to this section shall not reduce the tax rate as defined in section 137.073.

3. In a year of general reassessment, as defined by section 137.073, or assessment maintenance as defined by section 137.115 in which an ambulance or fire protection district in reliance upon the information then available to it relating to the total assessed valuation of such ambulance or fire protection district revises its property tax levy pursuant to section 137.073 or 137.115, and it is subsequently determined by decisions of the state tax commission or a court pursuant to sections 138.430 to 138.433 or due to clerical errors or corrections in the calculation or recordation of assessed valuations that the assessed valuation of such ambulance or fire protection district has been changed, and but for such change the ambulance or fire protection district would have adopted a different levy on the date of its original action, then the ambulance or fire protection district may adjust its levy to an amount to reflect such change in assessed valuation, including, if necessary, a change in the levy reduction required by this section to the amount it would have levied had the correct assessed valuation been known to it on the date of its original action, provided:

- (1) The ambulance or fire protection district first levies the maximum levy allowed without a vote of the people by Article X, Section 11(b) of the Constitution; and
- (2) The ambulance or fire protection district first adopts the tax rate ceiling otherwise authorized by other laws of this state; and
- (3) The levy adjustment or reduction may include a one-time correction to recoup lost revenues the ambulance or fire protection district was entitled to receive during the prior year.

The ballot of submission shall be in substantially the following form:

Shall _____ (insert name of ambulance or fire protection district) repeal the _____ (insert amount up to one-half) of one percent sales tax now in effect in the _____ (insert name of ambulance or fire protection district) and reestablish the property tax levy in the district to the rate in existence prior to the enactment of the sales tax?

HJR 3 [HCS HJR 3]

Proposes a constitutional amendment that establishes certain requirements for statewide ballot measures.

CONSTITUTIONAL AMENDMENT NO. 4. — (Proposed by the 103rd General Assembly, Second Extraordinary Session, HJR 3)

Official Ballot Title:

Shall the Missouri Constitution be amended to:

- Modify current requirements that a statewide majority of voters approve initiative petitions to amend the constitution;
- Require a majority of voters in each congressional district to approve initiative petitions to amend the constitution; and
- Make available to each voter the full text of initiative petitions with their ballot?

The Department of Corrections estimates increased annual costs of up to \$21,817. The Office of State Public Defender estimates an unknown fiscal impact. Other state governmental entities estimate no costs or savings. Local governmental entities estimate no costs or savings.

Fair Ballot Language:

A "yes" vote will amend the Missouri Constitution to:

- modify current requirements of Article III and Article XII that a simple statewide majority of voters may approve initiative petitions to amend the constitution;
- require a majority of voters in each congressional district to approve initiative petitions to amend the constitution; and
- make available to each voter the full text of initiative petitions with their ballot.

A "no" vote will not amend the Missouri Constitution to require majority approval in each congressional district for initiative petitions to amend the constitution or make available the full text of initiative petitions with the ballot.

If passed, this measure will not increase or decrease taxes.

JOINT RESOLUTION Submitting to the qualified voters of Missouri an amendment to Article III of the Constitution of Missouri, by adopting one new section relating to ballot measures, with penalty provisions.

SECTION

- A. Enacting clause.
- 54. Statewide ballot measure requirements.
- B. Summary statement.

Be it resolved by the Senate, the House of Representatives concurring therein:

That at the next general election to be held in the state of Missouri, on Tuesday next following the first Monday in November, 2026, or at a special election to be called by the governor for that purpose, there is hereby submitted to the qualified voters of this state, for adoption or rejection, the following amendment to Article III of the Constitution of the state of Missouri:

SECTION A. ENACTING CLAUSE. — Article III, Constitution of Missouri, is amended by adopting one new section, to be known as Section 54, to read as follows:

SECTION 54. STATEWIDE BALLOT MEASURE REQUIREMENTS. — **1. This section shall be known as the "Protect Missouri Voters" amendment.**

2. For purposes of this section, a statewide ballot measure shall mean any measure submitted or proposed to be submitted to the voters of the state under articles III or XII of this constitution.

3. (1) No political committee that makes expenditures or contributions in support of or in opposition to a statewide ballot measure shall knowingly or willfully receive, solicit, or accept, whether directly or indirectly, contributions from a foreign adversary of the United States or a foreign national. No foreign adversary of the United States or a foreign national shall make any contribution or expenditure in support of or in opposition to a statewide ballot measure.

(2) For purposes of this section:

(a) A foreign adversary of the United States shall be defined as:

a. Any national, provincial, or local government or any entity that is directly or indirectly controlled or owned by a government or that directly or indirectly controls a government or a political party of a foreign country designated as a foreign adversary by the United States Secretary of State from the time such designation is published in the Federal Register until revoked; or

b. Any individual who is a citizen of a foreign country meeting the requirements of subparagraph a of paragraph (a) subdivision (2) of subsection 3 of this section and who is not a United States citizen or lawful permanent resident;

(b) A foreign national shall be defined as any individual who is not a citizen or lawful permanent resident of the United States of America.

(3) Any violation of this subsection shall be punishable by imprisonment for up to one year or a fine of up to one thousand dollars or both, plus an amount equal to three times the illegal contributions. The attorney general shall have exclusive criminal jurisdiction.

(4) The general assembly may by law:

(a) Enact laws to implement the restrictions of this subsection, or enact further restrictions to implement this subsection;

(b) Enact restrictions on foreign support for or opposition to Missouri ballot measures;

(c) Enact reporting requirements regarding foreign support for persons or committees that oppose or support ballot measures; and

(d) Provide for the investigation and enforcement of the provisions of any such enactments, or of this subsection including, but not limited to, criminal penalties or civil remedies.

4. (1) Any person who commits any of the following acts with respect to a petition on a statewide ballot measure is guilty of the crime of petition signature fraud:

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.
Matter in bold-face type is proposed language.

(a) Signs any name other than his or her own to any petition, or who knowingly signs his or her name more than once for the same measure for the same election, or who knows he or she is not at the time of signing or circulating the same a Missouri registered voter and a resident of this state;

(b) Intentionally submits petition signature sheets with the knowledge that the person whose name appears on the signature sheet did not actually sign the petition;

(c) Causes a voter to sign a petition other than the one the voter intended to sign;

(d) Forges or falsifies signatures; or

(e) Knowingly accepts or offers money or anything of value to another person in exchange for a signature on a petition.

(2) Any person who knowingly causes a petition circulator's signatures to be submitted for counting, and who either knows that such circulator has violated subsection 1 of this section or, after receiving notice of facts indicating that such person may have violated subsection 1 of this section, causes the signatures to be submitted with reckless indifference as to whether such circulator has complied with subsection 1 of this section, shall also be deemed to have committed the crime of petition signature fraud.

(3) The crime of petition signature fraud shall be punishable by imprisonment for up to one year or a fine of up to one thousand dollars or both. The attorney general shall have exclusive criminal jurisdiction to prosecute under this section.

5. At a reasonable time and place after an initiative petition is submitted with signatures and before a petition is placed on a ballot, the secretary of state or the secretary's designee shall conduct one or more in-person or web-based hearings to receive additional public comment regarding the purpose and effect of the proposed measure. Transcripts or summaries of the hearings shall be made available to the public no later than seven days after the hearing is conducted and before the petition is placed on the ballot.

6. Notwithstanding Sections 51 and 52(b) of this article and Article XII, Section 2(b) of this constitution, statewide ballot measures to amend the constitution that are proposed by initiative petition are approved only if affirmative votes are cast by a majority of voters in each congressional district in effect at the time of the vote.

7. The full text of any statewide ballot measure proposed by the initiative shall be made available to each voter, either legibly printed on paper or in digital format, at the time a ballot is made available to the voter for voting. This requirement is in addition to, and does not replace, all other printings and displays of the full text and the ballot title required under this constitution or by law. The secretary of state is expressly authorized to promulgate rules consistent with rule making authority under Missouri law to implement and administer the provisions of this subsection.

8. The provisions of this section are self-executing. All of the provisions of this section are severable. If any provision of this section is found by a court of competent jurisdiction to be unconstitutional or unconstitutionally enacted, the remaining provisions of this section shall be and remain valid.

SECTION B. SUMMARY STATEMENT. Pursuant to chapter 116, and other applicable constitutional provisions and laws of this state allowing the general assembly to adopt ballot language for the submission of this joint resolution to the voters of this state, the official summary statement of this resolution shall be as follows:

"Shall the Missouri Constitution be amended to:

- Stop foreign nationals and foreign adversaries of the United States from providing funding to influence ballot measure elections, and allow criminal prosecution of violators;
 - Punish initiative petition signature fraud as a crime;
 - Require public hearings be held to get public comment before initiative petitions are placed on the ballot;
 - Require a majority of voters in each congressional district to approve initiative petitions to amend the constitution; and
 - Make available to each voter the full text of initiative petitions with their ballot?"
